Professional Summary

B.Tech Computer Science and Engineering student specializing in Artificial Intelligence and Machine Learning at Garden City University. Experienced in developing Python-based applications, REST APIs, and full-stack projects. Interested in AI-powered applications, privacy auditing, machine learning, and intelligent automation. Seeking internship opportunities to apply technical skills to real-world engineering challenges.

Technical Skills

Programming:	Python, Java, C++, C, JavaScript, SQL, HTML5, CSS3
AI/ML:	Machine Learning, Deep Learning, Generative AI, Prompt Engineering, RAG Fundamentals
Web Development:	FastAPI, Flask, Node.js, REST APIs, JWT Authentication, React.js
Databases:	MySQL, MongoDB, SQLite, SQLAlchemy
Data Analysis:	Pandas, NumPy, Matplotlib, Seaborn
Tools:	Git, GitHub, Hugging Face, Anaconda, Google Cloud, VS Code

EXPERIENCE

AI/ML Intern – Pluto Academy

- Applied AI/ML concepts and contributed to machine learning project development.

Data Analysis Intern – Pluto Academy

- Performed data cleaning, exploratory data analysis, and visualization using Python, Pandas, NumPy, Matplotlib, and Seaborn.
- Analyzed datasets to identify trends and communicate insights through visualizations.

Artificial Intelligence Intern – CodeAlpha

- Completed an Artificial Intelligence virtual internship and received a completion certificate and letter of recommendation.

Education

B.Tech – Computer Science & Engineering (AIML), Garden City University 2024–2028
CGPA: **8.27/10.0**

Class XII (PUC) – S J Pre University 2023
Percentage: **82.73%**

Class X (ICSE) – Martin Luther English School 2021
Percentage: **86.33%**

Projects

PrivacyAudit AI – AI-Powered Privacy Policy Auditor | Python, FastAPI, SQLAlchemy, JWT, PDF Processing

- Developed a privacy-auditing application to analyze uploaded PDF privacy policies and identify potential privacy concerns.
- Implemented REST APIs, JWT-based authentication, document uploads, audit status tracking, and findings retrieval.
- Built backend workflows for compliance and risk scoring and presenting audit findings to support privacy review.

E-Commerce Sales Analysis | Python, Pandas, NumPy, Matplotlib, Seaborn

- Cleaned and analyzed e-commerce datasets using Python, Pandas, and NumPy to explore sales performance.
- Visualized category-level revenue and monthly sales trends to communicate insights through charts.

Smart Parking System – Full-Stack Web App | React.js, Node.js, Express, MongoDB, REST APIs

- Developed a web application for parking-slot tracking and reservation management.
- Implemented REST APIs and database operations for parking-related functionality.

Smart FAQ Chatbot | Python, CustomTkinter, SQLite, JSON

- Built a desktop FAQ chatbot with an interactive GUI, fuzzy string matching, and automated responses.
- Integrated SQLite and JSON for FAQ storage and data management.

Certifications

- Deloitte – Data Analytics Job Simulation
- IBM watsonx Assistant: Virtual Assistants in the Age of Generative AI
- AWS Certified Developer – Associate Course, Infosys Springboard
- Introduction to Artificial Intelligence – Coursera
- TCS iON Career Edge – Young Professional
- Prompt Engineering – Infosys Springboard
- Front-End Web Developer – Infosys Springboard

Achievements & Activities

- Contribute learning resources and knowledge-sharing content to support community learning initiatives.
- Engage with technology-focused learning activities and help promote knowledge sharing within the community.
- Participated in Smart India Hackathon (SIH), proposing a DWLR-based solution for real-time groundwater monitoring.
- Completed an Artificial Intelligence virtual internship with CodeAlpha and received a completion certificate and letter of recommendation.

Knowledge Associate – GenZenius

Languages

English, Kannada, Hindi, Telugu
